JOB GOAL

Under the direction of the Architectural Sheet Metal Superintendent, the Sheet Metal Foreman oversees the metal work and crew on assigned job sites. The Foreman will request materials and report and respond to all events on the job site. This position will lead the crew of workers, giving direction and training as required. Ongoing communication will be done with both the Architectural Sheet Metal Superintendent and the General Manager.

SKILLS AND ABILITIES

- Comfortable working at heights
- Working knowledge of the metal standards set out by RCABC
- Familiar with the installation of multiple cladding systems and flashing applications
- Working knowledge of building codes
- Demonstrated success in reading blueprints and following drawings to layout elevations
- Keen eye for detail and the ability to problem solve
- Experience measuring and coordinating metal shipment and delivery
- Experience with metal machinery, associate power tools and forming metal on site
- Lead Toolbox meetings and liaison with site management to maintain the safety of all crew
- Organization and accuracy in completing site paperwork
- Positive role model with professional communication skills
- Ability to function under pressure and manage multiple demands
- Ability to perform the physical aspects of the job including but not limited to standing for long periods, crouching, bending, reaching, pushing, pulling and lifting heavy roofing materials

EDUCATION AND EXPERIENCE

- 5 – 7 years' experience in architectural sheet metal work
- Architectural Sheet Metal Worker ticket considered an asset
- Supervisory experience
- First aid training
- Valid BC Driver's License with the submission of the Drivers Abstract
- Fall Protection training
